Dimensions include angle iron for laminated bumpers. Other models and sizes available. Consult factory.
For metric conversion to mm, multiply inches by 25.4. For conversion to kg, divide lb by 2.2.

TYPE:

Molded: To be made of nylon cord reinforced rubber compound. Mounting holes are to be recessed to prevent damage.

Laminated: To be made of nylon impregnated heavy-duty industrial rubber and punched to receive 5/8" (16mm) supporting rod. Bumper material to be assembled with two 3" x 3" x 1/4" (76 x 76 x 6mm) thick steel angles, factory painted and fastened with threaded rod and nut.

OPTIONAL ACCESSORIES:

- Bumper risers (vertical)
- Bumper extensions (horizontal)
- Steel face plate (reduces bumper wear)
