BLUE GIANT EQUIPMENT CORPORATION

E-30 Electric Pallet Truck the Latest Offering in Blue Giant Equipment Line

Brampton, ON, Canada (November 2011) –Blue Giant Equipment Corporation has introduced the E-30 electric pallet truck to its Class III truck range.

“The E-30 combines economy with productivity,” says Jeff Miller, Vice-President of Sales and Marketing at Blue Giant. “It’s a low-cost, high-performance model, and an ideal solution for simple applications that may be too intensive for a basic manual pump truck.”

The 3,000 lb (1364 kg) capacity E-30 is DC-powered and easy to operate. Travel lift and lower functions are located in the ergonomic operator handle, which is designed to enable operation with either hand. The combination drive and transmission gear box offer low-noise performance, and the pump motor with relief valve protects the system from accidental overload. Additional features include 24-volt 65AH maintenance-free batteries with 110 VAC automatic charger and a Curtis drive controller that supports variable speed control.

“The E-30 is quickly becoming one of our most popular Class III truck offerings,” confirms Trevor Oake, General Manager of Blue Giant’s dealership. “It’s an economical yet efficient upgrade to the hand pallet truck and meets the overall need for maximum productivity and low lifetime operating costs.”

About Blue Giant Equipment Corporation

Blue Giant is the premier solutions provider of safe, effective, and technologically innovative loading dock and material handling equipment.

With a product line that includes dock levelers, vehicle restraints, intelligent dock controls, dock and door guards, door seals and shelters, and a diverse range of material handling equipment, Blue Giant offers turnkey solutions for the most demanding freight handling needs.
